ExxonMobil and INNIO Sign Long-Term Global Lubricants Collaboration Agreement for Jenbacher Gas Engines

- *ExxonMobil and INNIO sign a long-term extension of their global lubricants collaboration agreement for INNIO's Jenbacher Type 2, 3, 4, 6 and 9 natural gas engines*
- *Agreement marks the extension of a decades-long working relationship to co-engineer high-performance gas engine lubrication*

Brussels, May 28, 2020 – ExxonMobil and INNIO* have signed a long-term extension to their global lubricant collaboration agreement for INNIO's Jenbacher* Type 2, 3, 4, 6 and 9 natural gas engines. Working side by side, the companies will draw on their joint expertise in meeting the evolving needs of natural gas engine lubrication, resulting in the release of a new co-branded gas engine oil and other products in the future.

“We're pleased to build on our co-engineering working relationship with ExxonMobil,” said Andreas Lippert, Chief Technology Officer at INNIO Group. “Together, we continue to co-develop a range of high-performance gas engine oil technologies for our reliable and highly efficient Jenbacher Type 2, 3, 4, 6 and 9 natural gas engines, helping our customers achieve their business goals in the global energy transformation.”

“This collaboration with INNIO enables us to further strengthen our understanding of the application issues that customers face, in order to develop the right lubrication solution,” said Henning Feller, EAME Sales Manager Finished Lubricants.

News Release

“By combining our lubrication expertise with INNIO’s 90 years of gas engine innovation expertise, we can achieve one shared goal: to help INNIO’s Jenbacher gas engine customers improve their operational reliability, productivity, profitability and sustainability.”

About INNIO

INNIO is a leading solutions provider of gas engines, power equipment, a digital platform and related services for power generation and gas compression at or near the point of use. With our Jenbacher and Waukesha product brands, INNIO pushes beyond the possible and looks boldly toward tomorrow. Our diverse portfolio of reliable, economical and sustainable industrial gas engines generates 200 kW to 10 MW of power for numerous industries globally. We can provide life cycle support to the more than 50,000 delivered gas engines worldwide. And, backed by our service network in more than 100 countries, INNIO connects with you locally for rapid response to your service needs.

Headquartered in Jenbach, Austria, the business also has primary operations in Welland, Ontario, Canada, and Waukesha, Wisconsin, US. For more information, visit the company's website at www.innio.com. Follow INNIO on [Twitter](#) and [LinkedIn](#).

About ExxonMobil

ExxonMobil is one of the world’s largest suppliers and marketers of fuels, lubricants and specialties, including lubricant base stocks, waxes and asphalt. Tracing its lubricants history to the Vacuum Oil Company, formed in 1866 and acquired in 1879, ExxonMobil has been at the forefront of lubricant technology innovation for more than 150 years. Its breakthrough products have helped to power some of mankind’s greatest technological feats, including the first gasoline-powered automobile, the first electric generating system, the first powered flight and the first space shuttle launch, among others. Today, ExxonMobil continues to develop
