

Waukesha VHP Series 2 gas engines lean-burn upgrade

Conversion, Modification & Upgrade Offering

Product description

The Waukesha* VHP* Series 2 GL cylinder head upgrade brings the latest Series Four* rich-burn technology advances to the lean-burn Waukesha Series 2 VHP fleet. This robust cylinder head upgrade delivers increased reliability and uptime, significantly extending the time between top end intervals.

Product details

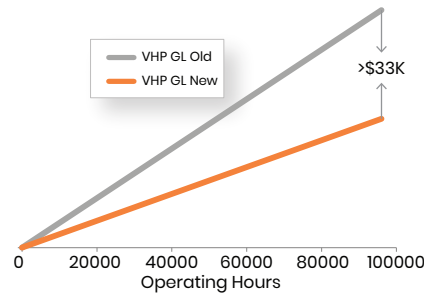

The full cylinder head rebuild scope includes:

- Flex head exhaust valve technology
- Valve rotators for intake and exhaust valves
- Valve guides
- Valve seats

Customer benefits

- **Reduced valve recession rates** due to introduction of valve rotators
- **Enhanced heat resistance** provided by flexible exhaust valve material
- **Extended top end intervals:**
 - Up to 60% longer intervals between top end overhauls (from 20,000 hours to 32,000 hours)
 - Elimination of every third top end overhaul
 - Up to 36% savings in \$/hr life cycle

Top-end extension lifetime savings
