

Dr. Olaf Berlien
is President and CEO
of INNIO Group.

Dr. Olaf Berlien

President & CEO

As a passionate supporter of new technologies and transformation, Olaf previously served as President and CEO of Osram AG from 2015 to 2021.

Olaf adds a broad range of experience to INNIO Group based on his previous work in the plant technology, automotive, and semiconductor industries. He was the CEO of Exyte AG, ThyssenKrupp Technologies AG, and ThyssenKrupp Elevator AG—and was the CFO for Carl Zeiss AG. He started his career at IBM in 1988.

Olaf has a master's degree in business administration and a doctorate in economics from the Technical University of Berlin, Germany.

About INNIO Group

INNIO Group is a global distributed energy solutions provider that delivers reliable, flexible, transient, decentralized, modular, and efficient power. With a track record of innovation, INNIO designs, manufactures, and services high-performance power systems under its Jenbacher and Waukesha brands. The company delivers power for applications including data centers, microgrids, grid stabilization, industrial energy, and gas compression.

INNIO has a global coverage across approximately 100 countries as of December 31, 2025, supported by a resilient, high margin services business that delivers long-term, recurring revenues across the full equipment lifecycle. As electricity demand accelerates – driven by AI, electrification and grid constraints – INNIO enables scalable, behind-the-meter power generation with high efficiency, fast-start capability, strong transient performance, and fuel flexibility, including hydrogen-ready solutions.

Headquartered in Munich, Germany, INNIO employs over 5,000 people worldwide and is committed to moving energy forward.
