

PRESS RELEASE

INNIO Completes Acquisition of Enerflex APAC Aftermarket Operations

Munich, Germany (September 30, 2026) – INNIO N.V. (Nasdaq: INIO) today announced the completion of its acquisition of Enerflex Ltd.'s aftermarket business operations in Australia, Thailand, and Indonesia. The transaction strengthens INNIO's presence in the Asia-Pacific (APAC) region and expands its ability to serve customers through enhanced local service capabilities and greater customer proximity.

The acquired business operates principally across three countries and eight locations and brings extensive workshop and office facilities, a highly experienced workforce, and a strong installed base supported by long-term service agreements with major oil and gas companies in the region. Through the transaction, INNIO further strengthens its ability to deliver responsive, high-quality service and lifecycle support to customers throughout APAC.

Forward-Looking Statements

This press release includes forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact contained in this press release, including statements regarding our future results of operations and financial position, industry dynamics, business strategy, order expectations and plans and our objectives for future operations are forward-looking statements. In some cases, you can identify forward-looking statements by terms such as “may,” “will,” “should,” “aim,” “expect,” “plan,” “anticipate,” “could,” “intend,” “target,” “project,” “contemplate,” “believe,” “estimate,” “predict,” “potential” or “continue” or the negative of these words or other similar terms or expressions that are intended to identify forward-looking statements.

These forward-looking statements involve known and unknown risks, uncertainties, changes in circumstances that are difficult to predict and other important factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statement. In light of these risks, uncertainties and assumptions, the forward-looking events and circumstances discussed in this press release may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements. We caution you therefore against relying on these forward-looking statements, and we qualify all of our forward-looking statements by these cautionary statements. For additional information on other potential risks and uncertainties that could cause actual results to differ from expected results, please refer to those set forth under “Risk Factors” in our Form 10-Q, filed with the Securities and Exchange Commission on July 28, 2026.

The forward-looking statements included in this press release are made only as of the date hereof. We undertake no obligation to update any forward-looking statements for any reason after the date of this press release to conform these statements to actual results or to changes in our expectations, except as may be required by law.

About INNIO

INNIO N.V. (Nasdaq: INIO) is a global distributed energy solutions provider that delivers reliable, flexible, transient, decentralized, modular, and efficient power. With a track record of innovation, INNIO designs, manufactures, and services high-performance power systems under its Jenbacher and Waukesha brands. INNIO delivers power for applications including data centers, microgrids, grid stabilization, industrial energy, and gas compression.

INNIO has global coverage across approximately 100 countries as of December 31, 2025, supported by a resilient, high-margin services business that delivers long-term, recurring revenues across the full equipment lifecycle. As electricity demand accelerates—driven by AI, electrification and grid constraints—INNIO enables scalable, behind-the-meter power generation with high efficiency, fast-start capability, strong transient performance, and fuel flexibility, including hydrogen-ready solutions. Headquartered in Munich, Germany, INNIO employs over 5,000 people worldwide as of December 31, 2025, and is committed to *moving energy forward*.
